WEAKNESS SHOWN IN STOCK MARKET

But Not Much of an Inroad Was Made on Prices.

OFFERINGS WERE NOT LARGE.

Early Hesitancy Was Succeeded by Rising Market But the Entire List Weakened in the Late Trading.

NEW YORK, Aug. 25.-Weakness was pretty generally manifested throughout the entire stock market to-day, but as the offerings of stocks were only fairly large in Brooklyn Transit, not much of an inroad was made on prices. Early hesitancy was succeeded by a rising mar-ket, but the entire list weakened in the late tradings on the publication of the bank statement and figuidation in Brook-lyn Tearly.

bank statement and liquidation in Brook-lyn Transit.

Numerous favorable weekly statements of earnings came to hand, but their show-ings were without avail in sustaining prices. Respecting the recent activity and strength in St. Louis and Southwest-ern, the July statement, made known to-day, is explanatory. The report showed a gain of 60 per cent, in net earnings over the corresponding period a year ago. Estimates as to the extent to which the banks had recouped themselves on Sub-Treasury operations and the interior currency movement for the loss in cash last week was not borne out in the official rency movement for the loss in cash last week was not borne out in the official report. The discrepancy is thought to be due to the complicated system of averages, which does not indicate the banks' real strength.

United States refunding 2's (when issued) declined ¼, but the new 4's advanced ¼ in the bid price.

Total sales of stock were 56,700 shares.

COTTON MARKETS. NEW YORK, Aug. 25 .- COTTON-The

market for cotton futures opened steady at a decilne of 5 to 15 points. The break was primarily due to a severe tumbie in the Liverpool market, generally better news from the crop centre and to a rirendly "Chronicle" summary of the week just ended. Liquidation was the leading feature of the speculation, though bear pounding occupied a prominent part in business throughout the session. The commission-houses and wire element were the chief buyers on the down-turn, presumably for profits, and but for this support the market would doubtless have declined sensationally at the opening. Private cables declared the English market had weakened under a storm of general selling, based upon our late break and the more encouraging crop accounts. The local market was very nervous all the forenoon, with the bears having things their own way much of the time. Receipts showed a disposition to pile up more rapidly, and conservative estimates pointed to a heavy forward movement next week. Southern spot markets were uescribed as weak and tending down under freer offerings; the Government weather reports depicted further showers over the central and eastern portions of the crop country, with fine, clear weather in the western belt. The crop testimony was generally good as compared with that received early in the week. Futures closed steady, with a price net 3 to 5 points lower.

Mr. H. A. Akers Meets Death on the Rail-Other Items of Interest of Railway Men and Affairs,

A pretty romance, in which a Virginia railroad man figures, has ended in mar-riage, and Mrs. Anna Leger, who up to a fortnight ago was a prominent church worker and club-woman of Engiewood. a Chicago suburb, is now Mrs. H. L. Ben-

About six months ago Mr. Benson, who About six morths ago Mr. Benson, who is employed as car inspector at the Seaboard Air Line shops at Portsmouth, saw some very able articles in a Christian paper, also the photograph of the writer. He became infatuated with the picture and wrote to the lady asking her if she would not send him her photograph. She, after some hesitancy, consented and She, after some hesitancy, consented, and in a short while he sent his in return. A correspondence then sprung up between them. Finally Mr. Benson proposed. He received a letter from Mrs. Leger saying that she had received many offers similar to his, but there was something in his letter that she admired, and that after mature consideration, she had concluded to accept him. The time was set and Richmond was the appointed place of meeting and to-day two weeks ago was

After a long and bitter fight, the matter was brought to a vote, and the committee decided under motion, to declare Bruin's precinct vacant. The vote stood six to four in favor of expulsion. The committee thereupon, appointed Mr. C. W. Throckmorton to fill the vacancy. The right of the committee in expelling Mr. Beattle was questioned. The actio however, was based on a similar instance which occurred in 1896, when Spencer Gil ham was expelled after the same manner

SOCIALIST TICKET NAMED.

H. Adolph Muller Nominated for Congress in This District.

The Socialist Labor party of this Con-gressional District held a convention at the party's headquarters, on North Fifth Street, last night, and nominated H. Adolph Muller, of Seven Pines, for Con-gress, and Joseph E. Madison, of Richnond, for elector. The platform, an exhaustive affair, endorses the nomination of Joseph F. Mallory for President and Valentine Remmel for Vice-President of the United States, it sets forth in its first sections that the true theory of poli-ics is that the machinery of politics must be owned and controlled by the whole pe ple, and that the theory of production must likewise belong to the people in common. The platform then holds that the existence of a privileged class and the alleged corruption of the Government by that class are attributable to the fact that the despotic system of economics i vogue in this country is a direct opposite of our domestic system of politics. The Social Labor men further on in their

platform say:

platform say:

"Science and invention are diverted from their humane purposes, to the enslavement of men, women and children.

"Against such a system this convention enters its protest. Once more it reiterates its fundamental declarations that private propery in the natural sources of production, and in the instruments of labor is tion, and in the instruments of labor, is the obvious cause of all economic servitude "We, therefore, call upon the wage-workers of the Third Congressional Dis-

trict, and upon all other citizens, to organ-ize under the banner of the Socialist Labor party, into a class-conscious body, aware f its rights and determined to conque them by taking possession of the public powers, so that, held together by an in-domitable spirit of soldity under the most trying conditions of the present class struggle, we may put a summary end to that struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the co-operative Com-monwealth for the present state of planless production, industrial war and socia disorder; a Commonwealth in which every all the modern factors of civilization."

does not appear to be an entertaining num-ber. There are big featured numbers, and

others that are rapidly pushing to the

front ranks, Lionel Strongfort, whose

stage name is Max Unger, is the special feature for the week, and a strong feature

is he, for the young man is the person

who succeeded the mighty Sandow as the perfect man. His name is synonymous with strength; his feats remarkable. Na-
